

Limited Warranty TERMS AND CONDITIONS AGREEMENT

I. Warranty Coverage:

Digital Check Corp. ("Digital Check") warrants its scanners, printers, and other specified devices, if used in accordance with all applicable instructions, to be free from original defects in material and workmanship during the applicable warranty period. If a product proves to be defective in material or workmanship during the warranty period, Digital Check, subject to these terms and conditions, will repair or replace, at its sole option, the product with a similar product as your exclusive remedy for Digital Check's breach of this limited warranty. Replacement product or parts may include remanufactured or refurbished parts or components.

You are responsible for packing and shipping your product to the repair location designated by Digital Check and for any damage caused by poor packaging or shipment.

II. Length of Warranty:

The standard warranty period for our check scanners is one (1) year and the standard warranty period for our printers is three (3) years. For additional information regarding the warranty period for your Digital Check product, please visit [<https://digitalcheck.com/support/warranty-service>].

Digital Check's products are warranted from original defects in material or workmanship for parts and labor during the applicable standard warranty period unless Digital Check has agreed in a written contract with You to provide a different warranty period. The warranty period begins the day the product is initially purchased by the end user. All Digital Check refurbished or exchanged products provided pursuant to this Limited Warranty will be covered by the balance of the time remaining on the initial warrant period or, if longer, an additional ninety (90) days.

III. Warranty Protection:

This limited warranty is valid only for the first end user and is not transferable. Proof of purchase is required.

IV. Non-Warranty Repair (NWR) Claims:

In the event a returned product is determined to be malfunctioning because of non-warranty related causes, Digital Check reserves the right to assess a flat rate repair fee, in addition to shipping costs. You are responsible for fees associated with non-warranty claims; including but not limited to cleaning, inspection, no trouble found, declined repairs, and customer induced damage.

See exclusions below for an expanded listing of non-warranty related items. If a product is determined to be non-repairable due to user negligence or abuse, you will be responsible for the costs associated with replacing the product.

V. **Out of Box Failures of New Purchases**

If an out of box failure of a newly purchased product were to occur as a result of original defects in material and/or workmanship, Digital Check will replace that product the next business day and at no additional cost. This out of box quality guarantee applies during the first 200 items scanned to ensure every product is in good working condition upon receipt. A prepaid return label will be sent with the replacement product so the defective product can be quickly and easily returned. You are responsible for packing the defective product into the replacement unit packaging and ensuring it is shipped back to Digital Check. If the product is not returned within 30 days, you are responsible for the replacement cost.

VI. **Expediting:**

Check Scanners: Digital Check offers an option to expedite the repair of its check scanners for an additional fee. The expedited repair will be completed and the product ready for shipment the next day via your specified shipping method if the product is received by 8:00 AM PST. You are responsible for shipping the product to and from our designated repair location. Optional fees apply and availability may be limited.

Printers: Digital Check also offers an option to exchange a printer for a refurbished unit via next day delivery for an additional fee. The exchange option is designed to provide a replacement printer the next business day in exchange for the defective printer. The replacement printer is shipped via overnight and a shipping label is included for the return of the defective printer via standard ground shipment. Exchanged printers are refurbished printers that have been repaired and tested and meet the original product specifications. Returned units are tested, repaired, inspected for quality control, and repackaged before being returned to the replacement pool for future use as a replacement unit. NOTE THAT BY USING THIS PROGRAM YOU AGREE TO RETAIN A REFURBISHED REPLACEMENT PRINTER INSTEAD OF THE ORIGINAL PRINTER. THE RETURNED PRINTER

WILL BECOME THE PROPERTY OF DIGITAL CHECK. Digital Check certifies each replacement unit meets new production quality standards, is in new or like-new condition, and in good working order.
